Blue arrived at Arundel Park in March 2009 and he started off a little nervous to becoming a very reliable horse, he is a very gentle horse and likes to be treated with gentleness and kindness. He is a medium build and with Blue, once horse and rider bond, it becomes a great team.

Blue is used for all sorts of riders; High support riders to nervous riders, he has taught many riders the basics of riding and to be gentle riders.

He is a much loved horse by both children and adults alike, as is he a great member of our Arundel Park horse team and we hope to have him with us for many years to come.
