ARRIVED AP : 24th February 2010
OWNED BY : Arundel Park

Shemi arrived at Arundel Park in February 2010 and he started off a quiet and very slow pony, fine with all game objects and ramp with wheelchair, like he has done it all before. He has become a very reliable pony, although he can be stubborn at times, he is very safe and looks after our little riders well.

Shemi is used for all smaller riders; High support children to nervous riders, teaching many children to ride and balance. He is a much loved by children and great member of our Arundel Park horse team and we hope to have him with us for many years to come.
